Amazing greige

This month's pick of great colours, textures, patterns and paints that work well together. Showing that anything can be the catalyst for a great interior scheme... it's where inspiration meets practicality

Words MICHELLE OGUNDEHIN

THE INSPIRATION

We championed greige, the combination of greys and beiges, last month as our new neutral for living rooms. And 'new' is the key word here. Whereas previously neutrals conjured images of acres of magnolia or bland shades of cream, greige tones have depth and warmth. But this is also a series of shades that is all about texture: thick tufts, piles, weaves and ribs. These carpets and rugs, throws and cushions absolutely lend themselves to these tones; it's what lifts them from flat to fabulous.
