Ten dream things we love this month

1 French designer Gauthier Poulain's 'Wings' lamp is whimsical yet functional. Made from three painted steel pieces fixed together with magnets, it comes in a range of colours and creates a delicate light effect. From £665 each (gauthier-poulain.com).

2 Just because it's summer doesn't mean you can't enjoy a beautiful knit. De Le Cuona's super-soft cashmere and bamboo throw is light and airy, but warm enough to ward off a chill on summer evenings. £1,128 (delecuona.co.uk).

3 Brit duo Industrial Facility's 'Branca' ash chair for Mattiazzi is the perfect example of the trend for simple, natural wood

furniture. Also available in green, white and chocolate finishes or black beech, £695, Aram Store (aram.co.uk).

4 The hourglass was the inspiration for these 'Clessidre' ceramic vases by Ginevra Bocini for Bitossi Ceramiche. The combination of matt and glossy glazes makes them extra special. From £295 each, The Home (thehomeonline.co.uk).

5 When we saw this 'Corinto Man' bicycle by Italian brand Taurus on the streets of Milan recently, we fell in love (apparently George Clooney is a fan, too). Built entirely by hand, it features an elegant leather saddle. Approx £590 (taurusbicycle.it). ➤
